

God's Son Jesus Christ paid for our sin.

"But God commendeth his love toward us, in that, while we were yet sinners, Christ died for us."

Romans 5:8

You can be saved and have eternal life.

"For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life." John 3:16

"That if thou shalt confess with thy mouth the Lord Jesus, and shalt believe in thine heart that God hath raised him from the dead, thou shalt be saved." Romans 10:9

Tract 024

What is artificial intelligence?

The term artificial intelligence (AI) is defined as “getting a computer to do things which, when done by people, are said to involve intelligence.” To be considered AI, a machine needs the ability to “learn.” Facial and voice recognition are examples of AI which are used everyday on our smart phones. These same systems can be used to track people and control their behavior. Have you ever discussed with someone a trip you were planning to take to a particular place, only to receive information on your phone about that same place? No, there is no one at Apple or Google spying on you through your phone (at least not a human) but the software can recognize key words you use when communicating through your microphone as well as words used in your text messages and emails.

Self-driving cars, video games and ChatGPT are more examples of how AI has found its way into our lives. Other technologies such as augmented reality (AR) and virtual reality (VR), are also radically changing our world. These examples merely scratch the surface of what is being experimented with, and implemented now, in ways we are unaware of. We are living in a time when knowledge is increasing exponentially!

The Bible said this time would come.

Daniel 12:4 says *“But thou, O Daniel, shut up the words, and seal the book, even to the time of the end: many shall run to and fro, and knowledge shall be increased.”* This describes our generation with advancements in travel and technology far surpassing any previous ones.

Science is in pursuit of immortality.

Some researchers believe that in the near future we will be able to digitize our personalities, feelings, memories, sensations, etc. and create a digital copy of ourselves interfaced with a robotic body which will never grow old and die. They do not acknowledge the existence of God who created us in His image, the reason we grow old and die, nor the only true source of immortality.

The God of the Bible is our Creator.

“So God created man in his own image, in the image of God created he him; male and female created he them.” Genesis 1:27

Death is the result of Adam’s sin.

“Wherefore, as by one man sin entered into the world, and death by sin; and so death passed upon all men, for that all have sinned.”
Romans 5:12
